## GETAC - K120 : K120

## Specifications

|                                                                                                                                                                  |                                      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|
| ENERGY STAR Unique ID:                                                                                                                                           | 2357307                              |
| Brand Name:                                                                                                                                                      | GETAC                                |
| Model Name:                                                                                                                                                      | K120                                 |
| Model Number:                                                                                                                                                    | K120                                 |
| Type:                                                                                                                                                            | Slate/Tablet                         |
| Category 2: Processor Brand:                                                                                                                                     | Intel                                |
| Category 2: Processor Name:                                                                                                                                      | Core i5,Core i7                      |
| Category 2: Base Processor Speed Per Core (GHz):                                                                                                                 | 1.8                                  |
| Category 2: Physical CPU Cores (count):                                                                                                                          | 10                                   |
| Category 2: System Memory (GB):                                                                                                                                  | 16                                   |
| Category 2: Default Low-power Mode:                                                                                                                              | ALPM                                 |
| Category 2: Long Idle Power Used for Sleep Mode:                                                                                                                 | Yes                                  |
| Category 2: Off Mode (watts):                                                                                                                                    | 0.2                                  |
| Category 2: Sleep Mode (watts):                                                                                                                                  | 1.1                                  |
| Category 2: Long Idle (watts):                                                                                                                                   | 2.9                                  |
| Category 2: Short Idle (watts):                                                                                                                                  | 6.7                                  |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                                   |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 14.1                                 |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 19.9                                 |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 2                                    |
| Category 2: Operating System Name:                                                                                                                               | Windows 11 Pro                       |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 30                                   |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 10                                   |
| WOL (Wake on LAN) From Sleep:                                                                                                                                    | Shipped Enabled Under All Conditions |
| Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:                    | No                                   |
| Ethernet Capability:                                                                                                                                             | Yes                                  |

|                           |                                            |
|---------------------------|--------------------------------------------|
| Touch Screen:             | Yes                                        |
| Date Available On Market: | 2024-05-17                                 |
