| Model Number:                                                                                                                                                    | Inspiron 7506 2n1                    |
| Type:                                                                                                                                                            | Notebook                             |
| Category 2: Processor Brand:                                                                                                                                     | Intel                                |
| Category 2: Processor Name:                                                                                                                                      | i7-1165G7                            |
| Category 2: Base Processor Speed Per Core (GHz):                                                                                                                 | 2.8                                  |
| Category 2: Physical CPU Cores (count):                                                                                                                          | 4                                    |
| Category 2: System Memory (GB):                                                                                                                                  | 16                                   |
| Category 2: Default Low-power Mode:                                                                                                                              | ALPM                                 |
| Category 2: Long Idle Power Used for Sleep Mode:                                                                                                                 | No                                   |
| Category 2: Off Mode (watts):                                                                                                                                    | 0.4                                  |
| Category 2: Sleep Mode (watts):                                                                                                                                  | 0.6                                  |
| Category 2: Long Idle (watts):                                                                                                                                   | 0.6                                  |
| Category 2: Short Idle (watts):                                                                                                                                  | 7.0                                  |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                                   |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 23.6                                 |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 21.6                                 |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 2                                    |
| Category 2: Operating System Name:                                                                                                                               | Windows 10                           |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 10                                   |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 10                                   |
| WOL (Wake on LAN) From Sleep:                                                                                                                                    | Shipped Enabled Under All Conditions |
| Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:                    | No                                   |
| Ethernet Capability:                                                                                                                                             | No                                   |
