## HP - HP Elite Dragonfly G2 Notebook PC ENERGY STAR : HP Elite Dragonfly G2 Notebook PC

### Specifications

|                                                  |                                               |
|--------------------------------------------------|-----------------------------------------------|
| ENERGY STAR Unique ID:                           | 2369330                                       |
| Brand Name:                                      | HP                                            |
| Model Name:                                      | HP Elite Dragonfly G2 Notebook PC ENERGY STAR |
| Model Number:                                    | HP Elite Dragonfly G2 Notebook PC             |
| Type:                                            | Notebook                                      |
| Category 1: Processor Brand:                     | Intel                                         |
| Category 1: Processor Name:                      | Core i3                                       |
| Category 1: Base Processor Speed Per Core (GHz): | 3.0                                           |
| Category 1: Physical CPU Cores (count):          | 2                                             |
| Category 1: System Memory (GB):                  | 8                                             |
| Category 1: Default Low-power Mode:              | ALPM                                          |
| Category 1: Long Idle Power Used for Sleep Mode: | No                                            |
| Category 1: Off Mode (watts):                    | 0.3                                           |
| Category 1: Sleep Mode (watts):                  | 0.7                                           |
| Category 1: Long Idle (watts):                   | 0.7                                           |
| Category 1: Short Idle (watts):                  | 5.1                                           |
| Category 1: Base TEC Allowance (kWh):            | 8                                             |
| Category 1: Functional Adder Allowances (kWh):   | 19.3                                          |
| Category 1: TEC of Model (kWh):                  | 15.0                                          |
| Category 2: Processor Brand:                     | Intel                                         |
| Category 2: Processor Name:                      | Core i7                                       |
| Category 2: Base Processor Speed Per Core (GHz): | 3.0                                           |
| Category 2: Physical CPU Cores (count):          | 4                                             |
| Category 2: System Memory (GB):                  | 32                                            |
| Category 2: Default Low-power Mode:              | ALPM                                          |
| Category 2: Long Idle Power Used for Sleep Mode: | No                                            |
| Category 2: Off Mode (watts):                    | 0.3                                           |
| Category 2: Sleep Mode (watts):                  | 1.0                                           |
| Category 2: Long Idle (watts):                   | 1.0                                           |

|                                                                                                                                                                  |                                                   |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------|
| Category 2: Short Idle (watts):                                                                                                                                  | 6.3                                               |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                                                |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 26.4                                              |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 19.0                                              |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 1                                                 |
| Category 1: Operating System Name:                                                                                                                               | Windows 10                                        |
| Category 2: Operating System Name:                                                                                                                               | Windows 10                                        |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 10                                                |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 10                                                |
| Ethernet Capability:                                                                                                                                             | No                                                |
| Touch Screen:                                                                                                                                                    | Yes                                               |
