## Lenovo - Lenovo V15 G4 ABP : Lenovo V15 G4 ABP

## Specifications

|                                                                                                                                                                  |                                      |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|
| ENERGY STAR Unique ID:                                                                                                                                           | 2561702                              |
| Brand Name:                                                                                                                                                      | Lenovo                               |
| Model Name:                                                                                                                                                      | Lenovo V15 G4 ABP                    |
| Model Number:                                                                                                                                                    | Lenovo V15 G4 ABP                    |
| Type:                                                                                                                                                            | Notebook                             |
| Category 2: Processor Brand:                                                                                                                                     | AMD                                  |
| Category 2: Processor Name:                                                                                                                                      | Ryzen 7                              |
| Category 2: Base Processor Speed Per Core (GHz):                                                                                                                 | 2.0                                  |
| Category 2: Physical CPU Cores (count):                                                                                                                          | 8                                    |
| Category 2: System Memory (GB):                                                                                                                                  | 16                                   |
| Category 2: Default Low-power Mode:                                                                                                                              | Off Mode with Hibernation            |
| Category 2: Long Idle Power Used for Sleep Mode:                                                                                                                 | No                                   |
| Category 2: Off Mode (watts):                                                                                                                                    | 0.4                                  |
| Category 2: Sleep Mode (watts):                                                                                                                                  | 0.7                                  |
| Category 2: Long Idle (watts):                                                                                                                                   | 3.2                                  |
| Category 2: Short Idle (watts):                                                                                                                                  | 5.0                                  |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                                   |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 19.2                                 |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 19.1                                 |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 2                                    |
| Category 2: Operating System Name:                                                                                                                               | Windows 11 Pro                       |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 15                                   |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 5                                    |
| WOL (Wake on LAN) From Sleep:                                                                                                                                    | Shipped Enabled Under All Conditions |
| Ethernet Capability:                                                                                                                                             | Yes                                  |
| Touch Screen:                                                                                                                                                    | No                                   |
