

## ENERGY STAR CERTIFIED Computers

### MSI - MS-14N1 : Prestige 14 AI Evo C1MG

| Specifications                                                                                                                                                   |                         |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| ENERGY STAR Unique ID:                                                                                                                                           | 3354730                 |
| Brand Name:                                                                                                                                                      | MSI                     |
| Model Name:                                                                                                                                                      | MS-14N1                 |
| Model Number:                                                                                                                                                    | Prestige 14 AI Evo C1MG |
| Type:                                                                                                                                                            | Notebook                |
| Category 2: Processor Brand:                                                                                                                                     | Intel                   |
| Category 2: Processor Name:                                                                                                                                      | Core Ultra 9 185H       |
| Category 2: Base Processor Speed Per Core (GHz):                                                                                                                 | 3.1                     |
| Category 2: Physical CPU Cores (count):                                                                                                                          | 16                      |
| Category 2: System Memory (GB):                                                                                                                                  | 32                      |
| Category 2: Default Low-power Mode:                                                                                                                              | Connected Sleep         |
| Category 2: Long Idle Power Used for Sleep Mode:                                                                                                                 | Yes                     |
| Category 2: Off Mode (watts):                                                                                                                                    | 0.1                     |
| Category 2: Sleep Mode (watts):                                                                                                                                  | 1.3                     |
| Category 2: Long Idle (watts):                                                                                                                                   | 1.3                     |
| Category 2: Short Idle (watts):                                                                                                                                  | 5.4                     |
| Category 2: Base TEC Allowance (kWh):                                                                                                                            | 14                      |
| Category 2: Functional Adder Allowances (kWh):                                                                                                                   | 23.1                    |
| Category 2: TEC of Model (kWh):                                                                                                                                  | 19.5                    |
| Notebooks, Desktops, Integrated Computers, Slate/Tablets, Two-in-one Notebooks, and Portable All-in-ones Category for TEC (Typical Energy Consumption) Criteria: | 2                       |
| Category 2: Operating System Name:                                                                                                                               | Windows 11              |
| Sleep Mode Default Time Upon Shipment (min.):                                                                                                                    | 10                      |
| Display Sleep Mode Default Time Upon Shipment (min.):                                                                                                            | 10                      |
| WOL (Wake on LAN) From Sleep:                                                                                                                                    | Shipped Disabled        |
| Will the Speed of Any Active 1 GB/s or Higher Ethernet Network Links be Reduced to Less Than 1 GB/s When Transitioning to Sleep or Off Mode?:                    | Yes                     |
| Ethernet Capability:                                                                                                                                             | Yes                     |

|                           |                                                   |
|---------------------------|---------------------------------------------------|
| Touch Screen:             | No                                                |
